MILEFLEX MICROASPHALT

This Certificate is issued under the Highway Authorities Product Approval Scheme (HAPAS) by the BBA in conjunction with the Highways Agency (acting on behalf of the overseeing organisations of the Department for Transport; the Scottish Executive Development Department; the Welsh Assembly Government; the Department for Regional Development, Northern Ireland), the CSS (formerly the County Surveyors' Society), the Local Government Technical Advisers Group, and industry bodies. HAPAS Agrément Certificates are normally each subject to a review every five years.

Product

• THIS CERTIFICATE RELATES TO MILEFLEX MICROASPHALT, A COLD-APPLIED MICROASPHALT SYSTEM, FOR USE AS AN OVERLAY SURFACE TREATMENT FOR FOOTWAYS AND FOOTPATHS.

- The product is for use as surface treatment, laid at nominal thicknesses between 6 mm and 20 mm for bituminous or concrete footways and footpaths to improve the surface characteristics, thus extending the life of the footway or footpath.
- The product is manufactured, marketed and installed by JPCS Ltd.

HAPAS Requirements

1 Requirements

1.1 The Highways Technical Advisory Committee (HiTAC) has agreed with the British Board of Agrément the aspects of performance to be used by the BBA in assessing the Mileflex system. In the opinion of the BBA, Mileflex Microasphalt, when applied to a suitable bituminous or concrete footway or footpath, in accordance with the provisions of this Certificate, will provide a satisfactory surface treatment to extend the life of a footway or footpath.
